

Directions to Tybee Island Marine Science Center & Turtle Release:

95 N to I 16

Follow I 16 until it ends in downtown Savannah. (Ignore the signs directing you to Tybee via HWY 80).

Once in town, turn right on Oglethorpe. Travel to the end.

Turn left on E Broad, then take the immediate Right onto President's Street.

This road will take you all the way out to Tybee...about 15-20 minutes (you will go over a long causeway, after the last bridge you will enter Tybee Island)

On Tybee, travel about 2 miles and turn left at 14th Street, enter the parking lot. The science center will be south at the end of that parking lot.
